"The bin men are terrible for leaving rubbish on the roads!"	Markfield
<p>"Please can we suggest the corner of Atterton Lane and Chapel Lane that the bank opposite our house be cut and cleaned up as it blocks all views of traffic coming down the lane and up. Quite a few near misses this year with heavy tractors and cars on the bend- very dangerous for cycles.</p> <p>P.S Please don't pass plans for building in Chapel Lane Witherley. Tractors speed down the lane and cars do not stop at the junction where the white line is. We have been here 30 years now, traffic has increased unbelievably this summer with works on the A5 bringing more cars coming through the village, driving over all the verges, lorries getting stuck outside our house, nightmare. What with flooding and sewage adding to problems as well.</p>	Witherley
<p>1. more attention needs to be given to cleanliness i.e. litter in lanes 2. The decision to put the Hinckley Hub where it is, is a disgrace. -no car parking (very little) -very difficult to access from Town Centre- especially for elderly -previously very central to town -previously helped support shops by its location -where it is now is the worst possible of all options 3. Borough Bulletin needs to cover rural areas of district- more than it does at present</p>	Market Bosworth
Recycling has got worse over the last three years due to "inability to take plastic bags for recycling"	Barlestone
Never see a member of the police force.	Earl Shilton
"Am concerned that LCC is withdrawing funding for waste collection. Either this service will be withdrawn or HBBC will have to pick up the funding. Where will this money come from?"	Burbage
Road Management very poor. Look at phasing traffic lights better. 1 left turn at Sketchley Bridge?	Burbage
Rubbish everywhere in carpark to quarters, New Street	Hinckley
The paved area at the end of Dean Road is not cleared of leaves etc. It appears that any leaves etc are blown onto paved area and are not removed	Hinckley
Due to people dropping food wrapping, chip papers, sandwich boxes etc_ instead of placing them into litter bins provided	Hinckley
No space for other comments. HBBC attitude has changed completely on recycling over last two years. Instead of encouraging recycling, the council now threatens to not pick up bins that include items which they used to recycle – plastic bags, black plastic, containers, other plastic items, the list is endless. Public bins for waste paper have been made very difficult to use. The openings have been reduced in size and almost cut one's hand when trying to put paper in them. HBBC needs a new management team for recycling. One that has some new ideas and realises that households should be encouraged not threatened. If the council reports a continued 55% of household rubbish recycled, we know that this figure will have been fiddled.	Market Bosworth
For a widower living alone, the bins are too large	Hinckley
Not recycling all plastics is a backward step.	Hinckley
Most publicity and help/development centred on Hinckley town centre	Groby

Most publicity and help/development centred on Hinckley town centre	Twycross
We use brown bin regularly and are concerned about proposals to abandon this scheme. It makes no sense either financially or environmentally to withdraw the green waste collection or to charge for it. Too many buildings planned with not enough consideration over the consequences. Why was the Regent Theatre bulldozed? The Barwell Sue is an example of the council not being "trustworthy"	Barwell
Dog mess is getting worse. No facilities in the summer for young people at Tilton Park. Everything is focussed on Richmond Park, Langdale, Queens Park, Clarendon fields etc Roadside collection carried out by eastern Europeans in transit vans. Vans which look un roadworthy. Do you ever check the legality of those or is it not politically correct?	Burbage
Insert bins for papers are all broken	Ratby
Insert bins for papers all broken as bin men change them from bin to bin	Burbage
Website is awful, not user friendly	Barlestone
Disappointed that plastic bags no longer recycled	Hinckley
Need more regular waste collection	Hinckley
HBBC targeting Mkt Bosworth as tourist area, but no investment or interest	Shenton
Consequence of inability to recycle plastics which were previously recycled is that waste in waste bins has tripled, therefore landfill costs must be now higher.	Bagworth
Lid clips needed on bins to stop waste going over road on windy days	Barwell
All plastic should be recycled and also the food waste should be reinstated	Burbage
Found label attached to 2 nd brown bin quite offensive Litter to be found around school entrances	Hinckley
Bins are left on pathways, this is not safe. Children walk on the pathways to school	Barwell
