TREASURY MANAGEMENT QUARTER 1 2016/17

Report of Interim Head of Finance

1. PURPOSE OF REPORT

- 1.1 To inform the Committee of the Council's Treasury Management activity in the first quarter of 2016/17.

2. RECOMMENDATION

- 2.1 That the Committee note the report.

3. BACKGROUND TO THE REPORT

- 3.1 At its meeting in February 2016 the Council approved the Council's Treasury Management Policy for the year 2016/17 and delegated the oversight of the execution of the Policy to this Committee.

This report sets out the Treasury Management activities in 2016/17 and shows that they are in line with the limits set out in the Policy.

Treasury Management covers two main areas:-

1. The management of day to day cash flows by way of short term investing and borrowing. Longer term investment opportunities may arise depending on cash flow requirements.
2. Management of the Council's Long term debt portfolio which is used to finance capital expenditure that cannot be immediately funded by internal resources (e.g. by Capital Receipts).

3.2 Economic Background

Interest Rates were cut to their lowest ever level in August in light of the Bank of England's post Brexit comments. There remains speculation that there could be further stimulus so therefore long term investment rates may keep value. Short term rates have decreased by an average of 0.2%. With rates set to remain low for a prolonged period, regular discussions are taking place with our advisors to explore investment options. The only caveat to this is the latest manufacturing and purchasing results in August. Both are better than expected and could delay further interest rate cuts in the near future. Due to the fall in the value of sterling and the impact of higher import prices inflation is set to increase. The latest forecast is RPI will be around 2.8 percent by the fourth quarter of 2018.

The latest forecasts are detailed in the table below:

3.3 Investment Activity

The Council's investment strategy primary objectives are safeguarding the repayment of the principal and interest of its investments on time, ensuring adequate liquidity, with the investment return being the final objective. If required, officers implement an operational strategy which tightens the controls already in place in the approved investment strategy. The Council's investment criterion was approved by Council in February 2016.

Funds for investment come from the following Sources

- a) Revenue Account Balances held by the Council
- b) Earmarked Reserves and Provisions
- c) Unapplied Capital Receipts
- d) Cash flow balances - income received before expenditure needs to be incurred

Details of investments held from April 2016 to Jun 2016 are available on request. As at 30 June 2016 the Council held the following investments totalling £13,848,400.

Counterparty	Investment Date	Maturity Date	Amount	Interest Rate
Hinckley & Rugby BS	22/04/2016	22/07/2016	2,000,000	0.5200
Nationwide BS	03/05/2016	03/08/2016	1,000,000	0.5000

Black Rock MMF	24/06/2016	01/07/2016	1,548,000	0.4124
Principality BS	28/06/2016	28/07/2016	1,000,000	0.4100
West Bromwich BS	30/06/2016	01/08/2016	1,000,000	0.4100
HSBC Bank	30/06/2016	01/07/2016	1,150,400	0.3500
Total			13,848,400	

Details of the weighted average investment to June 2016 are shown in the table below together with the average overnight, 7 day and 1 month London Inter Bank Bid (LIBID) as a bench mark to the rates received by the Council.

Period	Weighted Average invested	Average period (days)	HBBC Average Return	Overnight LIBID	7 Day LIBID	1 Month LIBID
Apr to Jun 16	3,707,607	10	0.4302	0.3574	0.3623	0.3849

The table above show that the Council received a rate of return that is compatible with the returns available in the market.

It also shows that the weighted average period is within the maximum set of 0.5 years. Average investments returns are higher then the comparable inter bank rate (a return of 0.43% compared against 0.38%).

3.4 Borrowing Activities

Long term borrowing to finance Capital Expenditure

Excluding the HRA self financing element the Council has a Capital Financing Requirement of around for the current year is £18.14m which arises from previous decisions to incur Capital Expenditure that was not financed immediately by internal resources e.g. Capital Receipts or Grants giving rise to the need to borrow to finance the expenditure. This borrowing requirement can either be met by long or short term external borrowing or by internal borrowing i.e. using the cash behind the authority's balances and reserves and foregoing investment income. At the present time the interest payable on long term borrowing is significantly greater than the returns the Council could expect on its investments and therefore the Council has adopted a policy of being "under-borrowed" with only £8.3m of long term loans on its books. One year loans from the PWLB currently cost 1.46% so if the Council was fully funded with short term money and was receiving investment income of 0.4% there would be a cost of £104,000 per annum. With 20 year rates at about 3.40% the additional cost would be £295,200 per annum. In these circumstances the Council has not undertaken any long term borrowing in the current year and has relied on short term borrowing to meet cash flow needs.

Additionally, as part of the Self Financing HRA Settlement £67.652m has been borrowed from PWLB. Repayment options have been discussed with members and were presented to the Executive on 13th March 2012. Repayments for principal amounts for these loans will commence in 5 years time. The loan will be repaid in equal instalments of £2.9414m over 23 yrs.

3.5 Short Term Borrowing

There is no short term borrowing in this quarter.
