TREASURY MANAGEMENT QUARTER 3 2016/17

Report of Head of Finance

1. PURPOSE OF REPORT

- 1.1 To inform the Committee of the Council's Treasury Management activity in the third quarter of 2016/17.

2. RECOMMENDATION

- 2.1 That the Committee note the report.

3. BACKGROUND TO THE REPORT

- 3.1 At its meeting in February 2016 Council approved the Council's Treasury Management Policy for the year 2016/17 and delegated the oversight of the execution of the Policy to this Committee.

This report sets out the Treasury Management activities in 2016/17 and shows that they are in line with the limits set out in the Policy.

Treasury Management covers two main areas:-

1. The management of day to day cash flows by way of short term investing and borrowing. Longer term investment opportunities may arise depending on cash flow requirements.
2. Management of the Council's Long term debt portfolio which is used to finance capital expenditure that cannot be immediately funded by internal resources (e.g. by Capital Receipts).

3.2 Economic Background

During quarter ended 31 December 2016:

1. The economy maintained its momentum despite the predicted short term impact of Brexit.
2. Households continued to drive overall economic growth.
3. The labour market showed some sign of weakening.
4. CPI inflation rose above 1% for the first time in two years.
5. The Chancellor eased the planned fiscal squeeze, but MPC kept policy unchanged.
6. Monetary policy in the US and the Euro-zone diverged.

The latest forecasts are detailed in the table below:

	Q1 2017	Q2 2017	Q3 2017	Q4 2017	Q1 2018
Bank Rate	0.25%	0.25%	0.25%	0.25%	0.25%
5yr PWLB rate	1.60%	1.60%	1.60%	1.70%	1.70%
10yr PWLB rate	2.30%	2.30%	2.30%	2.30%	2.40%
25yr PWLB rate	2.90%	2.90%	3.00%	3.00%	3.00%
50yr PWLB rate	2.70%	2.70%	2.80%	2.80%	2.80%

3.3 Investment Activity

The Council's investment strategy primary objectives are safeguarding the repayment of the principal and interest of its investments on time, ensuring adequate liquidity, with the investment return being the final objective. If required, officers implement an operational strategy which tightens the controls already in place in the approved investment strategy. The Council's investment criterion was approved by Council in February 2016.

Funds for investment come from the following Sources

- a) Revenue Account Balances held by the Council
- b) Earmarked Reserves and Provisions
- c) Unapplied Capital Receipts
- d) Cash flow balances - income received before expenditure needs to be incurred

Depending on the flow of cash (difference between income receipts and payments) the bank balance will vary. Where there is a surplus balance monies are invested. When there is a need for cash, investments are called in to ensure funds are not overdrawn. As at 31 December 2016 the Council held the following investments totalling £21,357,400. By year end the estimated balance is expected to be £11,000,000. The main reason is the precept payments which will recommence in February 2017 and direct debit income from Council tax which is not received in February and March. Investments as at 31st December are summarised below:-

Counterparty	Investment Date	Maturity Date	Amount	Interest Rate
Hsbc Bank	31/12/2016	01/01/2017	£1,757,400	0.1800

Details of investments held from April 2016 to December 2016 are available on request.

Details of the weighted average investment to December 2016 are shown in the table below together with the average overnight, 7 day and 1 month London Inter Bank Bid (LIBID) as a bench mark to the rates received by the Council. The Council received a rate of return that is comparable with the returns available in the market. Additionally, the weighted average period is within the maximum set of 0.5 years. Average investments returns are higher than the comparable inter bank rate (a return of 0.33% compared against 0.25%).

Period	Weighted Average invested	Average period (days)	HBBC Average Return	Overnight LIBID	7 Day LIBID	1 Month LIBID
Apr to Dec 16	13,551,260	11	0.3341	0.2187	0.2287	0.2473

3.4 Borrowing Activities

Long term borrowing to finance Capital Expenditure

Excluding the HRA self financing element the Council has a Capital Financing Requirement of £30.3m for the current year which arises from previous decisions to incur Capital Expenditure that was not financed immediately by internal resources e.g. Capital Receipts or Grants giving rise to the need to borrow to finance the expenditure. This borrowing requirement can either be met by long or short term external borrowing or by internal borrowing i.e. using the cash behind the authority's balances and reserves and foregoing investment income. At the present time the interest payable on long term borrowing is significantly greater than the returns the Council could expect on its investments and therefore the Council has adopted a policy of being "under-borrowed" by £22m with only £8.3m of long term loans on its books. One year loans from the PWLB currently cost 1.09% so if the Council was

fully funded with short term money and was receiving investment income of 0.28% there would be a cost of £154,960 per annum. With 20 year rates at about 2.90% the additional cost would be £561,960 per annum. On this basis the Council has not undertaken any long term borrowing in the current year and has relied on short term borrowing to meet cash flow needs.

Additionally, as part of the Self Financing HRA Settlement £67.652m has been borrowed from PWLB. Repayment options have been discussed with members and were presented to the Executive on 13th March 2012. Repayments for principal amounts for these loans will commence in March 2020. The loan will be repaid in equal instalments of £2.9414m over 23 yrs.
