- There may be circumstances where it is in the council's interest to initiate a minor disposal, for example land surplus to requirements, or for reasons of good estate management.

10.11 Land and property acquisition and disposals - major disposals

10.12 A major disposal is any disposal not covered by the minor disposal definition above. All major disposals have to be reported to SLT prior to the disposal taking place. When a property has been identified as surplus to the requirements of the council, the Corporate Property Officer should be notified. If the asset is not identified as a key disposal under the acquisition and disposal strategy, it should be processed by the asset management service to ascertain the value of sale. On successful completion of this process, the Corporate Property Officer may seek Executive approval to it being declared surplus and add the record to the acquisition and disposal strategy for an appropriate programmed sale. Detailed guidance on land and property disposal can be found in the council's adopted disposal policy.

10.13 Land and property acquisition and disposals - delegated powers of disposal

Delegated powers of disposal are considered separately and are subject to the council's constitution.
