

## What is homelessness?

The legal definition of homelessness is:

A household who has no home in the UK or anywhere else in the world available and reasonable to occupy.

## Scope and Purpose

The strategy outlines a strategic framework to inform the Borough council's approach to preventing homelessness, in all its forms, and to address the causes of homelessness. The effects of the Covid-19 pandemic are far reaching with financial hardship experienced by many, compounded by the emergent cost of living crisis. This strategy sets out the Council's approach to continuing effective service delivery to meet the needs of those at risk of homelessness within the borough.

The strategy identifies five priority themes:

- 1. We will continue working to prevent all forms of homelessness**
- 2. We will take action to prevent and end rough sleeping**
- 3. We will work towards increasing the availability of affordable and suitable rented accommodation, reducing our reliance on temporary accommodation**
- 4. We will take action to establish greater local collaboration between partners**
- 5. We will ensure that our services and solutions are personalised**

## Vision

To support people who are homeless or threatened with homelessness, to ensure that they have access to a safe and secure home.

To eradicate rough sleeping within the borough.

## Corporate Plan links

This strategy aligns with the following corporate objective:

'We will work to prevent homelessness and to support homeless people into appropriate accommodation.'

## Housing Strategy

A key priority in the Housing Strategy is 'To reduce homelessness and the use of temporary accommodation.'
