Explanations for Maximum	Current	Year End
Explanations for Variances	£000's	£000's
 Savings on salaries and agency costs, due to vacant posts and the restructure of the service. The year end variance assumes that vacant posts will be filled in 2-3 months. 		
	(43)	(55)
2. Savings on Car Allowances	(6)	(8)
3. Supplies & Services - under spend on Stock Condition Survey (currently awaiting invoices) of £48k (£63.5k budgeted for the full year), and further under spends of £25k on Consultancy Fees, awaiting project management for the new Orchard Direct Works module and ECMK services for the Integrator system. Equipment purchase has exceeded Budget by £3k (but this is Year Feet Understand the Park Integrator System).		
Year End: Under spends on Consultancy, £30k, and Legal and Audit, £10k are likely.	(70)	(40)
4. Under spends on Central Admin Expenses particularly Internal Audit £17k, IT £7k, Postage £5k, Public Offices £4k and other small variances £7k net. In most cases these arise from timing differences, depending on when invoices are received and processed, and is therefore unlikely to be a significant variance at the Year End.		
A projected Year End saving of £5k has, however, been estimated due to the delay in the move to the Hub.	(40)	(5)
5. The under spend on Programmed Repairs / Major Works is due to the high levels of WIP held in the Orchard system, yet to be completed and/or transferred into Civica. In addition, charges are due to be made for work done, by the In-House painting contractor, of £87k. An internal review is currently underway to confirm the budget position and to test underlying data. An under spend of some £7k is forecast for the Year End and this will be confirmed by the outcome of the internal review.	(138)	(7)
6. The under spend on Responsive Repairs is due to high levels of WIP held in the Orchard system yet to be completed and/or transferred into Civica. In addition, any deficit on the In-House trading account will be charged to client codes at the Year End. Also, commitments for material costs are 1 month behind. An internal review is currently underway to confirm the budget position and to test underlying data. A budget overspend by the Year End in the region of £66k is possible; this will be confirmed by the Actions have therefore been put in place to contain expenditure and to ensure that a result as close to Budget as possible is	(.50)	
A potential liability from remedial work connected with Asbestos has been estimated at £130k and a Supplementary Budget request has been submitted for approval.	(241)	196
