General Fund

3.3 Based on the approved budget (Council February 2023) it was anticipated that £227,961 would be transferred to balances and a net £1,360,642 transferred from earmarked reserves. Since that date, the budget has been increased by £15,003 representing supplementary budgets that have been approved in line with financial procedures rules. As at the end of June 2023,

the forecast is for the General Fund cost to increase by £110,776. This means an estimated £117,185 will be added to balances compared against the budgeted position of £227,961 being transferred to balances.

Housing Revenue Account

3.7 As at June 2023 it is anticipated that the HRA outturn will be in deficit by £311,771 compared against a budgeted deficit of £47,771. Major variances are explained below-

Table 4	Outturn variances £000 Under/(Over) Spend	Explanation
Employee Costs	(110)	Overspend due to overtime and salary overspend due to vacancy factor and pay award (for fully staffed service)
Bad Debt Provision	(170)	Forecast increase in contribution to bad debt provision for rents

3.8 The Housing Repairs Account is currently forecasted to make a surplus of £2,201, which is an overspend of £20,000 compared to the latest budgeted surplus of £22,201. This is due to an estimated overspend in the responsive repairs budgets due to increased demand.
