Site Allocations and Development Management Policies Development Plan Document Pre-Submission Report

Urban Areas
Site Selection Justification Paper

2014

The Residual Housing Requirement

Since the adoption of the Core Strategy in 2009, extensive progress has been made towards achieving the required levels of housing development. However in some settlements a residual housing requirement remains and land needs to be allocated to meet this requirement. Where this is the case the number of dwellings the Council still have to find land for is specified in a calculation known as the residual housing requirement. The elements of this calculation are identified and explained below, taken from the baseline date of the Core Strategy (1 April 2009):

Core Strategy Requirement (number of dwellings)

Dwellings expired

Alterations

Completions (net of demolitions)

Existing permissions (commitments)

This justifications paper will identify the residual housing requirement for each settlement as of 1 October 2013.

A key aspect of the calculation is that any site identified in the current housing supply in Table 1 of the Core Strategy (large and small site commitments and developable sites) should not be removed from the residual housing requirement. This is because these sites have already been accounted for in determining how much land the Council still has to find land for. The status of each element of the residual housing requirement in regards to its situation identified in Table 1 of the Core Strategy will be highlighted in this section.

<u>Dwellings expired since 1 April 2009</u>

Where sites identified as commitment in Table 1 of the Core Strategy have expired they need to be added onto the residual requirement. Planning permissions on sites which were not included in Table 1 of the Core Strategy that have since expired do not need to be added back onto the residual requirement.

<u>Alterations</u>

Where the capacity of a site identified as developable in Table 1 of the Core Strategy has been reduced (as informed by the latest Strategic Housing Land Availability Assessment Review 2013) the reduced capacity needs to be added to the residual requirement.

Completions since 1 April 2009 (net of demolitions)

The number of dwellings completed since 1 April 2009 are removed from the residual requirement. If there have been completions on a site identified in Table 1 of the Core Strategy they should not be removed from the requirement. Any dwellings demolished since 1 April 2009 are removed from the gross completions figure, making the figure net of demolitions.

Existing permissions (commitments) at 1 October 2013 (net of superseded permissions and 10% expiry rate)

The number of dwellings permitted since 1 April 2009 are removed from the residual housing requirement. Commitments not considered deliverable when the principles of paragraph 47 of the National Planning Policy Framework (NPPF) are applied are also removed from the total. If there have been permissions on a site identified in Table 1 of the Core Strategy they should not be removed from the requirement

Where a there has been a reduction in the capacity of a site permitted prior to 1 April 2009 and then superseded following 1 April 2009 this needs to be added to the requirement.

The Core Strategy Inspectors Report paragraph 3.45 proposes a discount of 10% on small site commitments due to the uncertainty in the development market. This 10% expiry rate has been applied to the total small sites commitments for each settlement (when no information on site delivery could be ascertained by the Council).

Sites identified with a PP reference are those which have gained planning permission since 1 October 2013.

Hinckley Urban Area

<u>Hinckley</u> <u>Justification of Site Selection</u>

Core Strategy Requirements

The Core Strategy set out a minimum requirement for 1120 new homes to be delivered in Hinckley. The residual housing requirement for Hinckley is described below:

Hinckley Requirement (1120)

+
Expired Permissions (269)

+
Alterations (63)
-

Dwellings completed (240)

Dwellings committed (permissions) (394)

Hinckley Residual Housing Requirement = **818 dwellings**

The sites included in this calculation are listed below.

Expired Permissions:

^{**} Flude House was included in the developable site row of Table 1 of the Core Strategy for 30 dwellings. Therefore only 24 of the 54 permitted dwellings should be included in the residual calculation

*** The College Sites were included in the developable site row of Table 1 of the Core Strategy for 60 dwellings.

Therefore only 72 of the 132 permitted dwellings on the northern site should be included in the residual calculation. The capacity of 72 had been exceeded by 1 October 2013

**** The Hinckley Club for Young People was included in the developable site row of Table 1 of the Core Strategy for

⁴⁸ dwellings. Therefore only 17 of the 65 permitted dwellings should be included in the residual calculation

Minus Supe	erseded Permissi	ons (30) and \$	Small Site Expir	y Rate (5):	394 (net)

^{*} This permission supersedes a permission committed in Table 1 of Core Strategy

In addition, the Core Strategy requires that the existing deficiencies in the quality and accessibility of green spaces and play provision are addressed and the strategic green infrastructure network as detailed in Core Strategy Policy 20 is implemented.

The Core Strategy requirement to allocate land for the development of 6 hectares of new office development has been addressed within the adopted Hinckley Town Centre Area Action Plan (March 2011). The Core Strategy requires the protection of allocated employment sites.

Preferred Options Consultation Responses

At the preferred option consultation stage there were a number of potential housing allocations put forward. These included:

Preferred Option Site Allocations (2009)			
Previous reference	Location	Proposed number of dwellings	
HIN01	Sherwood, Nutts Lane, Hinckley	6 dwellings	
HIN02	Land at and rear of Netherfield House, Hinckley	51 dwellings	
HIN03	Land off Nutts Lane, Hinckley	66 dwellings	
HIN04	Former Greyhound Stadium, Hinckley	64 dwellings	
HIN05	Land at 390 Coventry Road, Hinckley	14 dwellings (plus Neighbourhood Equipped Area of Play)	
HIN06	Land off Nutts Lane, adjacent to AS289, Hinckley	35 dwellings	
HIN07	18 Wood Street, Hinckley (known as ELS Factory North of Wood Street),	2 dwellings	

^{**}This permission is not currently considered to be deliverable

^{***} The College Sites were included in the developable site row of Table 1 of the Core Strategy for 60 dwellings. Therefore only 72 of the 132 permitted dwellings on the northern site should be included in the residual calculation. As at 1 October 2013 74 dwellings have been completed, so the capacity of 72 dwellings has been exceeded **** The Hinckley Club for Young People was included in the developable site row of Table 1 of the Core Strategy for 48 dwellings. Therefore only 17 of the 65 permitted dwellings should be included in the residual calculation. As at 1 October 2013 1 dwelling has been completed, leaving 16 of the remaining dwelling capacity available

	Hinckley	
HIN08	Factory on Parsons Lane, Hinckley (known as ELS Factory, East of Parsons	9 dwellings
	Lane), Hinckley	
HIN09	Factory west of Queens Road, Hinckley (known as ELS Hosiery Factory, West of Queens Rd), Hinckley	8 dwellings
HIN10	Hinckley AAP site: Land North of Mount Road, Hinckley	28 dwellings (Mixed Use)
HIN11	Hinckley AAP site: Railway Station, Southfield Road, Hinckley	24 dwellings (Mixed Use)
HIN12	Hinckley AAP site: Rugby Rd/Hawley Road, Hinckley	34 dwellings (Mixed Use)
HIN13	Land rear of 47 and 49 Clarendon Road, Hinckley	1 dwelling
HIN14	Hinckley AAP site: Bus Station, Hinckley	19 dwellings (Mixed Use)
HIN15	28-30 Westfield Road, Hinckley (known as ELS Timber Yard, South of Westfield Road)	16 dwellings
HIN16	Hinckley AAP site: Leisure Centre, Hinckley	55 dwellings
HIN17	Hinckley AAP site: Atkins Factory, Hinckley	5 dwellings (Mixed Use)
HIN18	Hinckley AAP site: Stockwell Head/ Concordia Theatre	51 dwellings (Mixed Use)
HIN19	Factory, East of Teign Bank Road, Hinckley (ELS site)	9 dwellings
HIN20	Land rear of 124 Middlefield Lane, Hinckley	3 dwellings
HIN21	Hinckley Boys Club, Stoke Road, Hinckley	48 dwellings
HIN22	Land south of 59 Langdale Road, Hinckley	6 dwellings
HIN23	Land rear of 2-14 Middlefield Place, Hinckley	8 dwellings
HIN24	Richmond Park Garage site, South of Richmond Park	2 dwellings
HIN25	Rear of 1 Middlefield Place, Hinckley	3 dwellings
HIN26	Garages adjacent 70 John Nichols Street, Hinckley	3 dwellings
HIN27	New Street Car Park, Hinckley	1 dwelling

HIN28	Hinckley AAP site: North Warwickshire and Hinckley College Sites	60 dwellings (Mixed Use)
HIN41	Council Depot, Middlefield	47 dwellings (Mixed
	Lane, Hinckley	Use)
HIN42	Area of Mixed Uses, Upper	61 dwellings(Mixed
	Bond Street, Hinckley	Use)

There were not any preferred option residential sites which received a significant level of objection. The highest number of objections was 6 representations for two sites. One of these sites was HIN04 the 'Former Greyhound Stadium'. This site has received planning permission (09/01007/FUL) for 84 dwellings and the settlement boundary will be amended to accommodate this development. The other site which received six objections was HIN06 'Land off Nutts Lane', adjacent to AS289, this site has not been carried forward for an allocation due to highway capacity and ownership constraints.

There was also no significant level of objections to the alternative sites put forward.

Progressing from the Preferred Options to selecting sites for allocation

Since the Preferred Options Report was published in 2009, a number of evidence base studies have been produced to inform the site selection process. Of most relevance for Hinckley, the following studies have been updated or completed:

- 2013 Strategic Housing Land Availability Assessment
- 2011 Open Space, Sports and Recreational Facilities Study
- 2012 District, Local and Neighbourhood Centre Review
- 2013 Community, Cultural and Tourism Facilities Review
- 2013 Employment Land and Premises Review
- 2013 Extended Phase 1 Habitat Survey

These studies have provided an updated baseline position since 2009, identifying open spaces and community facilities for protection.

Since the publication of the Preferred Options Paper (February 2009), the Hinckley Town Centre Area Action Plan (AAP) has been adopted (March 2011). Amendments to the AAP have resulted in less dwellings being accommodated on the AAP sites. This has resulted in additional land needing to be found to accommodate this shortfall. This has resulted in a number of the AAP sites identified in the Preferred Options Paper having a reduced residential capacity.

As highlighted in the Introduction, the Core Strategy was adopted in October 2009 and those sites which are identified in Table1 of the Core Strategy can not be counted towards the residual housing requirement in the Site

Allocations and these sites therefore have not been carried forward from the Preferred Options Paper.

In line with the sequential approach advocated in the Core Strategy, sites within the existing settlement boundary were considered first. Those sites that fall within the Hinckley settlement boundary are therefore preferable for allocation over and above other sites. However, it has not been possible to meet the residual requirement within the existing settlement boundary therefore it is necessary to consider sites adjacent to the settlement boundary to meet the shortfall.

Sites to be allocated at October 2013

Marina. The current use is as a motor garage
however the previous occupier for this use type has vacated the site. The site has an area of 1.5
hectares.
Justification for the The Employment Land and Premises Review
Allocation: (July 2013) identified this site as a category B
site, to be retained for 100% employment uses.
The site owners advised the intention to retain
the site for employment use. In addition
buildings on the site are of good condition and
there is good access to the strategic road
network. Therefore this site will be safeguarded
in line with policy DM19 to ensure a range of
employment opportunities.

Location:	Transco HQ, Coventry Road
Details of Allocation:	This is an edge of town centre employment area occupied by National Grid for office use. The site
Justification for the	area is 1.17 hectares. The Employment Land and Premises Review
Allocation:	(July 2013) identified this site as a category B site with 69% of employment use to be retained. In this Review the site was assessed as part of a larger site including Jarvis Porter and the National Grid premises off Brick Kiln Street. Jarvis Porter is in the middle of the area and being allocated for residential use and therefore being removed from the employment allocation. The site assessed in the Employment Land and Premises Review identified that 31% other uses are allowed. This 31% has been taken up by the Jarvis Porter site and therefore 100% employment use should be retained on HIN123. Therefore this site will be safeguarded under policy DM19 to ensure a range of employment opportunities.

Justification for the	The Open Space, Sports and Recreational
Allocation:	Facilities Study (July 2011) did not identify this
	site as open space because the development of
	which it is part had not been constructed. The
	site will be fully assessed as part of the review of
	the Open Space Sports and Recreational
	Facilities Study. The site adds to the amenity of
	local residents of the new estate and visual
	quality of the area. The site fulfils the definition
	and criteria to be identified as open space and safeguarded through Policy DM8.

	includes new site allocations.
Justification for the	In order to indicate where the boundaries for
Allocation:	development and settlement limits exist, it is
	necessary to set out the settlement boundary.
	The settlement boundary has been amended
	from that detailed in the previous Local Plan
	(2001) in line with the principles established in the Settlement Boundary Revision Topic Paper.
Res	idential Site Allocations
T(C)	HIN02
Previous Ref: EOI 254 and 5	
Location:	Land west of Hinckley, Normandy Way
Details of Allocation:	Allocate site for residential development of 610
	dwellings, a local shop or Neighbourhood
	Centre, Primary School and open space and
	play provision. The site has an overall area of
	39.65 hectares.
Justification for the	The full As299 site was surveyed within the
Allocation:	extended Phase 1 Habitat Survey and water
	voles were identified which are located close to
	the Ashby Canal, a full protected species survey
	would be required with a planning application on
	this site. See Habitat Survey Figure 12b and
	Target notes 31 – 38.
	The site is Greenfield and has been identified following extensive site searches to exhaust all possible options of brownfield and then green field sites within the Local Plan 2001 settlement boundary. Due to a lack of available sites to meet the Hinckley Housing requirement

identified within the Core Strategy this site has been selected to meet the shortfall.

There is an existing access available to the south east corner of the site, and a further road access is required to deliver the development which would need to be located to the north of the site onto the Northern Perimeter Road West.

The site has access to high order facilities and services such as Hospital, schools, college, the town centre, employment opportunities and recreation.

As described above the site will deliver a 1 form entry primary school to accommodate the children of the development.

Safe pedestrian links will have to be created from the development into the urban area to create that sustainable and essential link.

A small neighbourhood centre or local shop will also be required on site as the site is beyond the reasonable walking distance of any of the existing district, local or neighbourhood centre as identified within the District, Local and Neighbourhood Centre Review (February 2012).

A particular focus will need to be made on the boundary landscaping to enhance the newly created urban fringe and the transition from urban to rural, in accordance with the Landscape Character Assessment (July 2006). The development must focus on the connection with the existing urban area as the Landscape Character Assessment highlights sensitivity around the sites feeling of remoteness from the urban area.

The proposed allocated is set back significantly from the Conservation Area of Ashby Canal.

The rural character of this area is already eroded by Triumph, Hinckley and the A47 which is a strategic access.

During the preferred option consultation 2 letters of support for the site were received and no

	objections.	
HIN03		
Previous Ref: EOI 765 SHLAA Ref: AS1049		
Location:	Land to the South East of Wykin Park South,	
	located within Hinckley urban area, the site	
	currently forms a small proportion of Wykin Park.	
Details of Allocation:	Allocate site for residential development for a	
	minimum of 17 dwellings. The site has an overall	
	area of 0.51 hectares.	
Justification for the Allocation:	This site would constitute a loss of a small proportion of Wykin Park which is classed as a formal park within the typologies of the Open Space, Sport and Recreational Facilities Study (July 2011). Within the Study (page 350) it states that this open space typology within Hinckley is in excess of the quantity and accessibility standards therefore it is considered that the loss in this location would be acceptable in terms of reducing the requirement to use open countryside to meet the housing requirement for Hinckley. Also this location is within close proximity to existing facilities and services such	
	as schools and open space and the use would be in conformity with the adjacent land uses. Access could be gained through the adjacent new housing development.	
	There are no known ecological items of value but a habitat survey will be required with the planning application.	
	This development is acceptable in principle subject to detailed design in accordance with the 6Cs Design Guide (6CsDG). A transport statement would need to be prepared in accordance with DfT and 6CsDG, which would show the impact of the development. Additional infrastructure may be required to mitigate against the impact of the development on the surrounding network. Omaha Drive is still subject to a Section 38 agreement with Jelson Ltd and is not publicly maintained.	
B 1 B 1 B 1 B 1	HIN04	
Previous Ref: EOI 466, HIN2		
Location:	Land at 59 Langdale Road, located within the urban area of Hinckley, this site is hard standing and scrub land; it is bounded by predominantly residential properties.	
	1	

Details of Allocation:	Allocate site for residential development for a	
	minimum of 3 dwellings. The site has an overall	
	area of 0.16 hectares.	
Justification for the	This site was identified within the Core Strategy	
Allocation:	for 6 properties. It previously benefited from planning permission for 5 dwellings which has now expired. The borough council own this land and confirm that it is available for redevelopment within the plan period. The density has been reduced from that assumed at the time of the Core Strategy as it is the intention of the borough council to replace the existing garages within any new housing scheme, thereby reducing the net developable area for housing.	
	The site is previously developed land which should be allocated first on a sequential basis.	
	It was assumed within the Core Strategy (Table 1) that the site would deliver 6 dwellings, as this allocation is for 3 there is a requirement to add 3 dwellings onto the residual housing requirement for Hinckley.	
	The extended phase 1 Habitat Survey found that there was no ecological value on the site.	
	This development is acceptable in principle subject to detailed design in accordance with the 6CsDG. Detailed comments would be based on the proposed scheme.	
	HIN05	
Previous Ref: EOI 192 and E		
252, HIN01and 02		
Location:	Land West of Nutts Lane and south of the Railway Line, located within the urban area of Hinckley, this site abuts residential properties fronting Nutt's Lane and is bounded by existing infrastructure such as the railway line and the A5.	
Details of Allocation:	Allocate site for residential development for a minimum of 57 dwellings. The site has an overall area of 1.71 hectares.	
Justification for the Allocation:	This site is two adjacent sites which were submitted by their respective owners to the SHLAA. Highways have confirmed that access can be gained but is restricted in terms of dwelling numbers off the available access point.	

The Extended Phase 1 Habitat Survey didn't identify any constraints to the development of this site.

This site will be included within the revised settlement boundary which has been amended to take into account the permitted development within the Nutt's Lane area.

This development is acceptable in principle subject to detailed design in accordance with the 6CsDG. An acceptable access to the site is likely to be achieved by a simple priority junction to the requirements of the 6CsDG. However as it is likely that the adjacent site HIN06 will only be able to gain an acceptable access from the road provided to this site, provision should be made to accommodate an access to cater for the combined developments (86 houses). This is likely to require a right turn lane and a ghost island. There is a concern whether this is achievable within the highway corridor, and the proximity of the rail bridge may also be a constraint in delivering this layout. There is the added complication of accommodating the access to the industrial site on the opposite side of the road. Adequate visibility splays are likely to be achievable at the new access but need to be assessed as part of the detailed design of the access. There is existing congestion at the Nutts Lane/Coventry Road junction and the additional traffic generated as a result of this development may require works to be carried out to mitigate this impact. If the 2 sites are considered together (HIN02/06) a transport assessment and travel plan in accordance with DfT and 6CsDG guidance will be required. There may be a need for mitigation measures, or impacts may be so significant that we would recommend refusal. Improvements to Nutts Lane Canal bridge to the north of the site delivered as part of the Taylor Wimpey development (HIN03) are likely to deliver an available route to local schools. The nearest bus stops and services (convenience store) on Coventry Road are approximately 600 metres from site access so within 10 minutes walking time.

HIN06

Previous Ref: EOI 489, HIN2	6 SHLAA Ref: AS651
Location:	Garages adjacent to 70 John Nichols Street,
	located within a residential area of Hinckley.
	The site was used for garages leased through
	the Council.
Details of Allocation:	Allocate site for residential development for a
	minimum of 1 dwelling. The site has an overall
	area of 0.07 hectares.
Justification for the Allocation:	As described above the site currently consists of
Allocation.	garages, the intention is to develop the site for 1 dwelling and re-configure the site to replace the old garages which are still in use. This is to mitigate any negative impact in regards to the
	loss of parking in this residential area which was a concern raised by the Highway Authority.
	It was assumed within the Core Strategy (Table 1) that the site would deliver 3 dwellings, as this allocation is for 1 there is a requirement to add 2 dwellings onto the residual housing requirement for Hinckley.
	The site is previously developed and is within the urban area so should be redeveloped.
	The Extended Phase 1 Habitat Survey does not identify the site as having any ecological value.
	There were no representations received to this allocation at Preferred Option stage.
	This development is acceptable in principle subject to detailed design in accordance with the
	6CsDG, there are concerns that the removal of
	off street parking (garages) will result in vehicles parking within the public highway. Evidence that
	sufficient parking for residents within the area
	will remain needs to be provided at application
	stage.
	HIN08
Previous Ref: EOI 459, HIN1	6 SHLAA Ref: AS351
Location:	Hinckley Leisure Centre, Coventry Road, located
	within Hinckley Town Centre AAP boundary and
Details of Allegations	is currently the Leisure Centre.
Details of Allocation:	Allocate site for residential development for a
	minimum of 66 dwellings. The site has an overall area of 1.33 hectares.
Justification for the	The Council who own the Leisure Centre intend
Allocation:	to replace the facility within Hinckley Town
	13 15 place and latering maint mileting form

Centre as the current facility is no longer fit for purpose without significant investment. Due to the sites sustainable location and context it has been assumed that a higher density of 60 dwellings per hectare (dph) is achievable on this It was assumed within the Core Strategy (Table 1) that the site would deliver 44 dwellings however with the increased density the number to be deducted from the residual housing requirement for Hinckley is 22 dwellings. The allocation of this site is in general conformity with the Core Strategy and the Hinckley Town Centre AAP. This development is acceptable in principle subject to detailed design in accordance with the 6CsDG. Detailed comments would be based on the proposed scheme. A transport assessment would need to be prepared in accordance with DfT and 6CsDG guidance, which would show the impact of the development. Additional infrastructure may be required to mitigate against the impact of the development on the surrounding network. HIN09 Previous Ref: UHIN06, ELS 09/10 SHLAA Ref: AS911, AS912 165. EOI 281 and EOI 735 Location: Land north of Willowbank Road, located on the edge of Hinckley Town Centre boundary **Details of Allocation:** Allocate site for residential development to deliver a minimum of 19 dwellings. The site has an overall area of 0.26 hectares and is currently scrubland and derelict garages. Justification for the This site is brownfield land and its allocation for Allocation: residential development will enable the efficient re-use in this sustainable location close to the town centre including the Bus Station and the Train Station. The density assumed for this site is 60dph which reflects the density of the adjacent housing site to the south of Willowbank Road and its sustainable location. The Employment Land and Premises Review included an element of this site within the Hawley Road Industrial Estate, specifically the

disused garages to the west of the site. These garages do not perform any employment function therefore redevelopment of these as part of a wider residential scheme is considered appropriate and will have no impact on the employment land supply within Hinckley.

The sites have been submitted to be considered through the Strategic Housing Land Availability Assessment process by the respective land owners which demonstrates it is available for development.

There are no known ecological items of value but a habitat survey will be required with the planning application.

This site is newly identified and has been selected because of its status as brownfield land and its sustainable location.

This development is acceptable by the Highway Authority in principle subject to detailed design in accordance with the 6CsDG. At the planning application stage a transport statement would need to be prepared in accordance with DfT and 6CsDG guidance, which would show the impact of the development. Willowbank Road beyond the new extension is too narrow for access and would need to be widened, however its status is not clear (it is not public highway). The area covered by As912 is currently occupied by garages, however it is not clear whether they are currently being used, as the surrounding dwellings appear to have adequate off-street parking. The site appears to include the Havelock Buildings which have inadequate offroad parking, and hence extensive on-street parking occurs, which can make access difficult. Removal of this building and provision of improved off-street parking as part of any future development may improve this situation.

HIN10		
Previous Ref: EOI 475, HIN24	1	SHLAA Ref: AS637
Location:	urba	mond Park Garages, located within the n area of Hinckley, this site is currently local ority owned garages.
Details of Allocation:	Alloc	cate site for residential development for a

	minimum of 2 dwellings. The site has an overall	
	area of 0.05 hectares.	
Justification for the Allocation:	The site is within the existing settlement boundary of Hinckley and is defined as previously developed land. Highways have confirmed that the site is accessible for residential use.	
	The site is owned by the borough council and the redevelopment of the site will facilitate the delivery of replacement garages where appropriate.	
	The Extended Phase 1 Habitat Survey did not identify ant ecological assets on the site.	
	It was assumed within the Core Strategy (Table 1) that the site would deliver 2 dwellings, as this allocation is for 2 dwellings nothing will be deducted from the residual housing requirement for Hinckley.	
	This development is acceptable in principle subject to detailed design in accordance with the 6CsDG.	
	HIN11	
Previous Ref: HIN20 and 41, 457 and EOI 538	EOI SHLAA Ref: AS385/601	
Location:	Land to the East of Middlefield Lane. Located within the urban area of Hinckley, this site is the former Council Depot which has now been vacated. Part of the rear garden of 124 Middlefield Lane is also included within this allocation.	
Details of Allocation:	Allocate site for residential development for a minimum of 53 dwellings. The site has an overall area of 1.56 hectares.	
Justification for the Allocation:	The Council owned depot has now been relocated and this site is vacant previously developed land. Within the Employment Land and Premises Review (July 2013) the loss of this part of the employment site for residential use will have little impact on the wider employment area.	
	The land to the rear of 124 Middlefield Lane will be developed as part of the wider scheme and will enable the utilisation of under used garden land which has been confirmed as available by	

	the land owner.
	The site is surrounded by predominantly residential development so the re-development will remove this non-conforming use from this area. The site is located within the urban area so is sustainable.
	There are no known ecological items of value but a habitat survey will be required with the planning application.
	This development is acceptable in principle subject to detailed design in accordance with the 6CsDG. Detailed comments would be based on the proposed scheme. A transport statement would need to be prepared in accordance with DfT and 6CsDG guidance, which would show the impact of the development. Middlefield Lane north of Richmond Gate is only a track and will need upgrading to a suitable standard. Additional infrastructure may be required to mitigate against the impact of the development on the surrounding network. Bus services are available within a short walking distance of the site on Netherley Road.
	HIN12
Previous Ref: EOI 474, HIN2	3 SHLAA Ref: AS636
Location:	Land rear of 2-14 Middlefield Place, located
	within the Hinckley urban area, the site is
	currently hard standing and amenity green
Details of Allocation:	Allocate site for residential development for a minimum of 5 dwellings. The site has an overall area of 0.22 hectares.
Justification for the Allocation:	This site has been identified for only 5 dwellings in order to enable the replacement of the existing green space in a manner which is more conducive to its future use.
	The site currently consists of unsightly underutilised hard standing and is deliverable as it is within the ownership of the borough council.
	The Extended Phase 1 Habitat Survey does not identify ecological value within the site.
	It was assumed within the Core Strategy (Table

Previous Ref: RLAC 08/0008	allocation is for a minimum of 5 dwellings an additional 3 must be added to the residual housing requirement for Hinckley. This development is acceptable in principle subject to detailed design in accordance with the 6CsDG. HIN13 6. SHLAA Ref: AS916
ELS 09/10 168, EOI 725	o, OTEAA Ref. A0010
Location:	Essentia House, 56 Upper Bond Street, located within Hinckley Town Centre Area Action Plan boundary, the site is partly demolished and the existing building is vacant.
Details of Allocation:	Allocate site for residential development for the minimum of 23 dwellings. The site has an overall area of 0.16 hectares. The site has previously benefited from planning permission for residential development.
Justification for the Allocation:	This site is covered by Policy 12A of the Hinckley Town Centre Area Action Plan (March 2011), the allocation is consistent with that policy. The site has received planning permission for a mixed use scheme for the erection of offices and residential development under reference 08/00086/FUL. As a result of this permission the Leicester and Leicestershire HMA Employment Land Study (2009) identifies Essentia House as a Tier 1 site (available for immediate development). The subsequent Employment Land and Premises Review (2013) identified Essentia House as a 'C' Site where 25% other mixed use options would be allowed to reflect the planning permission. As the planning permission has not been implemented an allocation for residential development will enable the efficient re-use of this site. The site is within a sustainable location close to services and facilities, its development would constitute the redevelopment of previously developed land. There are no known ecological assets on the site. This development is acceptable in principle

	subject to detailed design in accordance with the 6CsDG. Detailed comments would be based on the proposed scheme. A transport statement would need to be prepared in accordance with DfT and 6CsDG guidance, which would show the impact of the development. Additional infrastructure may be required to mitigate against the impact of the development on the surrounding network.			
HIN14 Previous Ref: UHIN01. SHLAA Ref: AS361				
Previous Ref: UHIN01, ELS 09/10 I69, EOI 491, HIN1				
Location:	Stockwell Head (Land East of Baptist Walk), located within the Hinckley Town Centre AAP boundary, the site forms part of an identified strategic development area (policy 2 of the Hinckley Town Centre Area Action Plan (March 2011).			
Details of Allocation:	Allocate site for residential development for the minimum of 40 dwellings. The site has an overall area of 0.8 hectares.			
Justification for the Allocation:	The area of the larger 'Strategic Development Area' (SDA) site as identified within Policy 2 of the adopted Hinckley Town Centre AAP is proposed for housing as it is a derelict site where the original factory has been demolished. So the allocation delivers the re-use of previously developed land. The density assumed for this site is 60dph which reflects the density of the adjacent housing and its sustainable location and the proximity to local services and facilities. It was envisaged that the SDA would be delivered as a comprehensive scheme but as the site is still vacant it is envisaged that this sites development will act as a catalyst to the remaining sites redevelopment. The site is adjacent to the Hinckley Town Centre Conservation Area, the redevelopment of this site will enable the improvement to the context and setting of the Conservation Area. Within the Employment Land and Premises Review (2013) the site identified as Knitwear Factory, Holliers Walk has been identified as a 'C' Site where 50-75% of the site could be used			

for other purposes. Therefore this allocation is in line with the evidence. It was assumed within the Core Strategy (Table 1) that the site would deliver 40 dwellings, as this allocation is for a minimum of 40 dwellings nothing will be removed from the residual housing requirement for Hinckley. This development is acceptable in principle subject to detailed design in accordance with the 6CsDG. Detailed comments would be based on the proposed scheme. A transport statement would need to be prepared in accordance with DfT and 6CsDG guidance, which would show the impact of the development. Additional infrastructure may be required to mitigate against the impact of the development on the surrounding network. HIN15 Previous Ref: RLAL 07/00433. SHLAA Ref: AS320 EOI 504 and EOI 764, ELS 09/10 -182 Location: Factory / Works, South of Wood Street (23) Wood Street), located within the urban area of Hinckley. Part of the site has been demolished but the remainder is still in use as an employment site. **Details of Allocation:** Allocate site for residential development to deliver a minimum of 5 dwellings. The site has an overall area of 0.1 hectares. The site has previously benefited from planning permission for residential development. Justification for the This site is previously developed land and its allocation for residential development will enable Allocation: the efficient re-use in this sustainable location close to the town centre. The wider site was assessed within the Employment Land and Premises Review and was identified as a category 'C' site which allows alternative uses. The full site was the subject of a pre-application for the entire site for 20 dwellings, however the factory is still in use so the allocation is for 5 plots on the part of the site which has been demolished. There are no known ecological items of value but a habitat survey will be required with the planning application.

	The site is acceptable in principle subject to			
	The site is acceptable in principle subject to detailed design in accordance with the 6CsDG.

Previous Ref: RLAL 08/0012 EOI 763				
Location:	99-113 Castle Street, the former Kenny's Bar			
	which has now closed for business and is			
	therefore classed as previously developed land			
	located within Hinckley Town Centre.			
Details of Allocation:	Allocate site for residential development to			
	deliver a minimum of 24 dwellings. The site has			
	an overall area of 0.19 hectares. The site has			
	previously benefited from planning permission			
	for residential development.			
Justification for the	This site is a vacant derelict site which			
Allocation:	constitutes previously developed land within the			
	existing settlement boundary. The site is located			
	on the periphery of the Primary Shopping Area			
	but does not form part of the Primary or			
	Secondary Shopping Frontage of Hinckley Town			
	Centre as defined within the Hinckley Town			
	Centre Area Action Plan (See section 12 of the			
	AAP). The site is surrounded by residential			
	development. The deliverability of this site can			
	be demonstrated by the developer interest and			
	the pre-application submissions which have			
	been made in connection with the site. There			
	are no known ecological items of value but a			
	habitat survey will be required with the planning			
	application. The sites location is highly			
	sustainable being within the defined town centre, close to existing public transport links and			
	existing services and facilities.			
	existing services and facilities.			
	The development of this site is acceptable in			
	· ·			
	principle subject to detailed design in accordance with the 6CsDG. Detailed			
	comments would be based on the proposed			
	scheme for 24 houses. A transport statement			
	would need to be prepared in accordance with			
	DfT and 6CsDG guidance at planning			
	application stage; this would show the impact of			
	the development. Additional infrastructure may			
	be required to mitigate against the impact of the			
	development on the surrounding network.			
	Access and parking to the standards of 6CsDG			
	would be required.

Location:	Land North of Mount Road (Vicarage Site)			
	located within the Hinckley Town Centre AAP boundary and is currently within residential use			
	of very low density.			
Details of Allocation:	Allocate site for residential development for a			
	minimum of 40 dwellings. The site has an overall			
Justification for the	area of 0.42 hectares. This site is partly brownfield land and its			
Allocation:	allocation for residential development will enable the efficient re-use of this site. It is in a sustainable location close to the town centre including the Bus Station, Train Station, existing services and facilities and is within a predominantly residential area.			
	The site is considered to be deliverable as a planning application has been submitted.			
	The residential re-development of this site is considered to be in accordance with the policy within the Hinckley Town Centre AAP.			
	A total of 18 dwellings will be taken off the residual housing requirement for Hinckley by allocating this site, as it was assumed in the Core Strategy (Table 1) that 22 dwellings would be developed on this site. As the capacity has increased the additional dwellings can be deducted from the residual requirement.			
	The Highway Authority considers that this development is acceptable in principle subject to detailed design in accordance with the 6CsDG. The site has no frontage to the publicly maintained highway. The footway along Argents Mead is obstructed by trees and not suitable for pedestrian use. Lighting appears not to be to Highway Authority standards. Visibility around the bend is restricted and any new access would need to be located to provide adequate visibility. Traffic calming may be required to reduce vehicle speeds. The width of Argents Mead may be inadequate to accommodate additional traffic (depending on access proposals for adjacent redevelopment of Council offices). A transport statement would need to be prepared in accordance with DfT and 6CsDG guidance, which would show the impact of the development. Additional infrastructure may be			

	required to mitigate against the impact of the			
	development on the surrounding network. HIN18			
Previous Ref: ELS 09/10 I70, SHLAA Ref: AS336				
UHIN07, EOI 495	OHEAA NOI. AGGOO			
Location:	Land South of Southfield Road			
Details of Allocation:	Allocate site for residential development of 40 dwellings at a density of 40 dwellings per hectare. The site has an overall area of 1.2 hectares.			
Justification for the Allocation:	This site is partly brownfield land and its allocation for residential development will enable the efficient re-use of this site. It is in a sustainable location close to the town centre including the Bus Station, Train Station, existing services and facilities and is within a predominantly residential area.			
	There is an access road and path that runs adjacent to the site which leads to Hinckley train station and crosses the width of the site, this path also crosses railway line via the railway bridge into Burbage.			
	A total of 20 dwellings will be taken off the residual housing requirement for Hinckley by allocating this site, as it was assumed in the Core Strategy (Table 1) that 20 dwellings would be developed on this site. As the capacity has increased the additional dwellings can be deducted from the residual requirement.			
	Policy 8 of the Hinckley Town Centre AAP identifies this site for a comprehensive mixed use redevelopment including offices and a transport interchange. The Employment Land and Premises Review identifies the site as a category 'C' employment area and advises 25% other uses allowed for this site. This site has been derelict for a number of years with no prospect of employment development coming forward. Therefore in order to bring this site back into use it has been allocated for residential development.			
	In relation to highways, ribbon development with off-street parking would be a suitable form of development for this site. As there is no single			

	point of access with this type of development, junction visibility will not be an issue, although pedestrian visibility splays (2m x 2m) will be required on the driveways serving each property. Also, there is good forward visibility along Southfield Road in either direction on both the straight section and on the outside of the bend towards Station Road, and vehicle speeds are limited to 30 mph. There is an existing Traffic Regulation Order (double yellow lines) along the frontage of the site, which is likely to need amending to allow some degree of on-street parking. There are also zigzag markings associated with the Pelican crossing near the junction of Station Road, which ideally should not have vehicular driveways within the controlled zone. However, the crossing is at the extreme western end where the site narrows significantly, and therefore development in this area is not likely to be achievable.

^{*} This permission supersedes a permission committed in Table 1 of Core Strategy

In addition, the Core Strategy requires that the existing deficiencies in the quality and accessibility of green spaces and play provision are addressed and the strategic green infrastructure network as detailed in Core Strategy policy 20 is implemented.

Preferred Options Consultation Responses

At the preferred option consultation stage there were a number of potential housing allocations put forward. These included:

^{**} The Sketchley Brook site was included in the developable site row of Table 1 of the Core Strategy for 270 dwellings. The site has permission for 375 dwellings, so the permitted capacity of this site should be limited to 105 dwellings for the residual calculation

Preferred Option Site Allocations (2009)					
Previous references Location Proposed number of dwellings					
BUR01	Land between A5 and Rugby Road, Burbage	236 dwellings			
BUR30	Land rear of 99-107 Lutterworth Road	4 dwellings			
BUR31	32 Lychgate Lane	2 dwellings			
BUR32	Land off Woodbank	7 dwellings			
BUR33	29 Britannia Road	3 dwellings			

None of the preferred option residential sites received a significant level of objection. The highest number of objections was 15 representations for BUR01 'Land between the A5 and Rugby Road'. This site has subsequently received planning permission under reference 10/00518/OUT. This site has planning permission for 375 dwellings; it was included in the developable site row in Table 1 of the Core Strategy for 270 dwellings, so the permitted capacity of this site should be limited to 105 dwellings for the residual calculation.

Progressing from the Preferred Options to selecting sites for allocation

Since the Preferred Options report was published in 2009, a number of evidence base studies have been produced to inform the site selection process. Of most relevance for Burbage, the following studies have been updated or completed:

- 2013 Strategic Housing Land Availability Assessment
- 2011 Open Space, Sports and Recreational Facilities Study
- 2012 District, Local and Neighbourhood Centre Review
- 2013 Community, Cultural and Tourism Facilities Review
- 2013 Employment Land and Premises Review

These studies have provided an updated baseline position since 2009, identifying open spaces and community facilities for protection.

In line with the sequential approach advocated in the Core Strategy, sites within the existing settlement boundary were considered first. In order to minimise greenfield development the residential development off Rugby Road is to be intensified so meet the residual housing requirement for Burbage.

Sites to be allocated at October 2013

	Employment
	BUR50PP
Previous Ref: BUR01	SHLAA Ref: AS103
Location:	Hinckley Commercial Park Employment
Details of Allocation:	A new employment site under construction
	adjacent to Logix Park. This employment area is
	also known as Phase II, Hinckley Commercial
	Park and is located off the A5 (Watling
	Street).Companies such as Geo Post/DPD will
	be located in the employment area. The site has
	an area of 17.23 hectares
Justification for the	The site was granted outline planning
Allocation:	permission under reference 10/00518/OUT in
	August 2011 and subsequently full planning
	permission for the infrastructure and open space elements of the scheme under reference
	11/00856/REM in January 2012.
	11/00030/INEWI III January 2012.
	The Employment Land and Premises Review
	(July 2013) identifies Hinckley Commercial Park
	as a new employment site currently under
	construction. This site is a category A site to be
	retained for 100% employment use.
	BUR51
Previous Ref: BUR03	SHLAA Ref: AS106
Location:	Logix Distribution Park
Details of Allocation:	Logix Park is a modern distribution centre
	located to the west of Burbage with access onto
	the A5. The site is a key industrial
	estate/distribution park with various occupiers
	including Johnson Apparelmaster, Armstrong
	Logistics and Syncreon. The site has an area of
	19.15 hectares.
Justification for the	The Employment Land and Premises Review
Allocation:	(July 2013) identified this site as a category A
	site, to be retained for 100% employment uses.

	Therefore this site will be safeguarded in line
	with policy DM19 to ensure a range of
	employment opportunities.
	BUR52
Previous Ref: BUR02	SHLAA Ref: N/a
Location:	Sketchley Meadows Industrial Estate
Details of Allocation:	A key industrial estate for the borough situated
	on the north western corner of Burbage. The site
	is in industrial use with various occupiers. The
	site has an area of 12.48 hectares.
Justification for the	The Employment Land and Premises Review
Allocation:	(July 2013) identified this site as a category A
	site, to be retained for 100% employment uses.
	Therefore this site will be safeguarded in line
	with policy DM19 to ensure a range of
	employment opportunities.
	BUR53
Previous Ref: BUR04	SHLAA Ref: AS151
Location:	Hinckley Business Centre, London
	Road/Burbage Road
Details of Allocation:	A converted business complex on the edge of
	Hinckley with various occupiers and within light
	industrial use. The site has an area of 1.12
	hectares.
Justification for the	The Employment Land and Premises Review
Allocation:	(July 2013) identified this site as a category B
	site, to be retained for 100% employment uses.
	The site provides budget small business space
	and has a continuing demand for premises.
	Therefore this site will be safeguarded in line
	with policy DM19 to ensure a range of employment opportunities.
	BUR54

Location:	Rugby Road Recreation Area
Details of Allocation:	Open Space:- Children's Play Space, Formal Park, Outdoor Sports Facilities and Young Persons Facilities situated in a recreation area adjacent the railway on the northern periphery of Burbage. The site has an overall area of 3.02 hectares.
Justification for the Allocation:	The Open Space, Sports and Recreational Facilities Study (July 2011) identified the following quality scores: • Children's play space: 60% • Young persons facilities: 40% • Forma Park: 45% • Outdoor Sports Facilities • Football Pitch: 40% • Tennis Courts: 40% • Bowling Green: 0%
	There is an identified shortfall in the quality and quantity of all the above open space types in Burbage. This site provides the opportunity for a good selection of potential activities for a wide demographic range. The variety of open space typologies within close proximity is safeguarded as a valuable resource through policy DM8 and offers enhancement in the future.

S	ettlement Boundary
Burning But BUDG	BUR01
Previous Ref: BUR25	SHLAA Ref: N/a
Location:	The Settlement Boundary for Burbage
Details of Allocation:	The revised settlement boundary hugs the
	settlements built form and curtilages and includes new site allocations.
Justification for the	In order to indicate where the boundaries for
Allocation:	development and settlement limits exist, it is
Allocation.	necessary to set out the settlement boundary.
	The settlement boundary has been amended
	from that detailed in the previous Local Plan
	(2001) in line with the principles established in
	the Settlement Boundary Revision Topic Paper.
Resi	dential Site Allocations
	BUR02
Previous Ref: BUR01	SHLAA Ref: AS103
Location:	Land at Brookfield Road and Sketchley Brook
Details of Allocation:	Allocate site for residential development to
	deliver a minimum of 110 dwellings. The site has
	an overall area of 3.18 hectares.
Justification for the	This site is brownfield land and its allocation for
Allocation:	residential development will enable the efficient
	re-use of the site in this sustainable location
	close to Hinckley town centre including the Bus
	Station and the Train Station.
	Policy 4 of the Core strategy identifies that new
	residential development should be <i>'focussed'</i>
	primarily to the north of Burbage adjacent to the
	Hinckley settlement boundary to support the
	Hinckley sub regional centre'. This allocation is
	within this location.
	This site has already gained planning permission
	as part of a wider scheme under reference
	10/00518/OUT for 375 dwellings. To meet the
	residual housing requirement for Burbage in line
	with Core Strategy Policy 4 this existing
	permission is to be intensified to make the best
	use of this brownfield site.
	The Employment Land and Premises Review
	The Employment Eana and Fromises Neview

	(July 2013) includes part of this site. The Review identifies this site as a category C site with 50% alternative uses allowed. Although part of this site has already gone forward for residential development since the publication of the Review occupiers of the site have expressed their intention to relocate from their existing site to another location within the Borough. Therefore the redevelopment of this area as part of a wider residential scheme is considered appropriate and will have no impact on the employment land supply within Hinckley. There is an existing access available onto Rugby Road as part of the allocation BUR04PP which already has planning permission.
Duariero Dafa M/a	BUR03
Previous Ref: N/a	SHLAA Ref: AS170
Location: Details of Allocation:	Wynne Motor Services, 73-75 Sapcote Road
Details of Allocation:	Allocate site for residential development to deliver a minimum of 5 dwellings. The site has
	an overall area of 0.17 hectares.
Justification for the	This site is brownfield land and its allocation for
Allocation:	residential development will enable the efficient
	re-use of this site.
	The site is considered to be developable as
	planning permission has been approved on this
	site under reference 06/01369/OUT and
	subsequently 10/00032/EXT, however the
	planning permission has since expired.
	No objections were raised by the Highways
	Authority as part of the planning application
	process under references 06/01369/OUT and 10/00032/EXT.
Residential Site A	llocations with Planning Permission*
BUR04PP	
Previous Ref: BUR01	SHLAA Ref: AS103
Location:	Land at Sketchley Brook
Details of Allocation:	An approved residential scheme for 375
	dwellings with associated infrastructure, public
	open space and vehicular and pedestrian access situated to the north of Burbage.
	access situated to the north of bulbage.
Justification for the	This residential scheme was approved under
Allocation:	reference 10/00518/OUT for 375 dwellings in
	August 2011. Reserved Matters were approved

	for 212 dwellings under reference 12/00697/REM and 133 dwellings under reference 12/00698/REM in December 2012. Outline planning permission for the residual 30 dwellings still remains.
BUR05PP	
Previous Ref: N/a	SHLAA Ref: AS123
Location:	Land south of 26-28 Britannia Road
Details of Allocation:	An approved residential scheme for 52dwellings
	with associated infrastructure and garages
	situated on the southern edge of Burbage.
Justification for the	This residential scheme was approved under
Allocation:	reference 12/00154/FUL in May 2012.

^{*}Sites referenced PP are sites with planning permission for residential development over 5 dwellings, permitted up to the 1 October 2013.
