

## Appendix 4 Strategic and non-strategic policies

The National Planning Policy Framework (NPPF)<sup>1</sup> (paragraph 20) states that “strategic policies should set out an overall strategy for the pattern, scale and design quality of places (to ensure outcomes support beauty and placemaking), and make sufficient provision for: housing, employment, retail, leisure, infrastructure, community facilities and preservation of the natural, built and historic environment”. The NPPF (Glossary) defines strategic policies as “policies and site allocations which address strategic priorities in line with the requirements of Section 19 (1B-E)<sup>2</sup> of the Planning and Compulsory Purchase Act 2004”.

The NPPF (paragraph 21) states that “Plans should make explicit which policies are strategic policies<sup>12</sup>. These should be limited to those necessary to address the strategic priorities of the area (and any relevant cross-boundary issues), to provide a clear starting point for any non-strategic policies that are needed. Strategic policies should not extend to detailed matters that are more appropriately dealt with through neighbourhood plans or other non-strategic policies”.

The NPPF (paragraph 28) states that “non-strategic policies should be used by local planning authorities and communities to set out more detailed policies for specific areas, neighbourhoods or types of development. This can include allocating sites, the provision of infrastructure and community facilities at a local level, establishing design principles, conserving, and enhancing the natural and historic environment and setting out other development management policies. “

Furthermore, National Planning Policy Guidance (NPPG)<sup>3</sup> sets out that where a local plan contains both strategic and non-strategic policies, the non-strategic policies should be clearly distinguished from the strategic policies (please see the NPPG for further information).

The following table sets out current policies in the Local Plan and identifies whether they have strategic or non-strategic status. The strategic or non-strategic status of policies is of relevance for neighbourhood plans. Legislation requires that neighbourhood plans must be in general conformity with the strategic policies in the adopted local plan for the area, and any other strategic policies that form part of the statutory development plan where relevant (please see the NPPG for further information). The NPPF (paragraph 13) states that “neighbourhood plans should support the delivery of strategic policies set out in the local plan or spatial development strategy and should shape and direct development that is outside of those strategic policies.”

### **Chapter 1: What Is the Local Plan?**

No policies

### **Chapter 2: Spatial Portrait**

No policies

### **Chapter 3: Vision and Objectives**

No policies

### **Chapter 4: Spatial Strategy**
