127. **Minutes of previous meeting**

It was moved by Councillor Williams, seconded by Councillor Sutton and

RESOLVED – the minutes of the meeting held on 8 July be confirmed as a correct record.

128. **Declarations of interest**

No interests were declared.

129. **Hinckley Leisure Centre Annual Performance Review 2023/24**

Members received a presentation from representatives of Places Leisure. During discussion, the following points were raised:

- Plans for solar panels on the leisure centre
- A new platform used by the operators to see where the membership was coming from
- The increase in the number of schools accessing swimming lessons at the leisure centre
- Work in the rural communities to improve physical and mental wellbeing
- Other venues across the borough which provided community activities, such as Sport In Desford and village halls.

It was requested that the information on where members of the leisure centre were from be included in future annual reports.

130. **Fly Tipping data**

Further to a request at the previous meeting for additional fly tipping data to that included in the end of year performance report, members received a briefing note

with the information. It was noted that the data was also required to be reported nationally.

It was noted that, where possible, investigations took place to find out where the refuse had originated from by using address labels, however fly tippers were taking more care nowadays to remove identifying information.

It was reported that warning letters and fixed penalty notices could be issued – the fine for the latter had doubled in April 2024. In the event that a householder had paid someone to remove their rubbish which was then fly-tipped, a duty of care inspection could be undertaken in recognition of the householder's duty to ensure their refuse is being disposed of legally.

It was requested that this information be provided each year as part of the frontline service review for Street Scene Services.

Concern was expressed that the reduced open hours of household recycling sites and the requirement for businesses such as farmers to pay to use them contributed to fly tipping.

RESOLVED –

- (i) The report be noted;
- (ii) The data be included annually as part of the frontline service review report for Street Scene Services.

131. Voids Property Management - Council Housing Service

In response to a request at the previous meeting for further information on performance relating to void council properties, members considered a report detailing the voids process and performance including improvements over the previous 12 months to reduce void times. It was noted that there were no long term voids.

Members welcomed the report and asked that it be noted by the Housing Task & Finish Group which was currently undertaking a review.

RESOLVED – the report be noted.
